

Communicable Disease Mitigation Rules for the Lodge/Chapter/Council

For our Brothers/Companions planning attending the meetings:

1. If you are sick or have symptoms of a communicable disease, and do not have a recent negative test; or if you have recently travelled to a location where communicable disease is prevalent (and do not have a negative test); or you have been recently exposed to someone who has a communicable disease; **then please do not come to a physical meeting** (as a Mason please be respectful of your other Masons and their health)
2. It is recommended that you do not attend a physical meeting unless you have been fully vaccinated against the communicable disease (this is because you are more at risk of contracting the disease)
3. Physical distancing is not required but where possible some measures should take place; wear a face covering if this makes you feel more comfortable; when working in close proximity to another member, both of you could wear masks; masks will be available at the meeting
4. Wash your hands frequently and when not possible use hand sanitizers

This Lodge/Chapter/Council does not require your physical presence at this time, that is the “Summons” are now a request to attend.

By attending the meeting and signing the Porch Book you are acknowledging the above rules and hold harmless the organization and the building society if you do contract a communicable disease.
